DETAILED EMPLOYMENT HISTORY (MOST RECENT FIRST):

This section of your resume must be very carefully completed and must include the full period of your professional employment in strict chronological order.

Your application will not be helped by the inclusion in your resume of generic or 'copy- pasted' descriptions of your employing organization, its structure, your job description and/or your duties & responsibilities, etc. This highly-visible, highly-rewarding and life-changing opportunity demands the presentation of a detailed resume which accurately portrays **your actual work environment, responsibilities and experience**, which will be subject to review and confirmation in a series of future potential interviews and reference checks.

Your resume must clearly indicate if you are currently working and any gaps in employment must be explained.

This section must also include 3-4 lines describing the precise services which each organization provides. If a hospital is involved, information must be provided on the number of authorized beds and any international accreditation, such as JCIA/ISO, etc.

Each employment experience must also include an overview of the team, the reporting structure, details of specialist areas covered (including patient types), the types of dietetic interventions undertaken, including enteral and parenteral nutrition support, if provided. Other precise experience in dealing with a caseload of patients with chronic diseases/lifestyle diseases, such as diabetes, cardiovascular and conditions related to old age, must also be covered.

Please ensure that any organization named on your resume in a Philippine language is also stated in English.
